This shows that George Mason was the original owner of the land where the unnamed cemetery was located in the NE/4 of Section 30. However, George Mason is known to have owned many parcels of land in the county, so there is no reason to believe that the had a house near the cemetery site or that he buried his family members there. Of course, a detailed check of original deed wording may reveal some reference to the location of his house or to the existence of a cemetery on his land, but that investigation has not yet been performed.

INDEX TO LANDS

Section 30 Township 4 South of Range 1 west Madison County, Alabama.
