INTRODUCTION

Madison County was a part of Mississippi Territory from 13 December 1808 until 10 December 1817 when Alabama Territory was created. During this period Madison was the only county in what later became North Alabama. The 1809 census and land applications (Valley Leaves, Volume 1, #1 and #2) identify some of the county's earliest settlers and additional names of pioneers are revealed by these 1810-1815 tax lists. Some taxpayers (especially those paying no poll tax) were not residents of Madison County, but owned or applied for land while living elsewhere. This becomes evident after studying the early Land Records (Alabama Archives and National Archives) on which the applicant's residence is recorded. Unfortunately the tax returns do not distinguish between a non-resident and a Madison Countian 'under or over age' as neither paid poll tax, just land and/or other taxes. Nevertheless, the appearance of a name in which you are interested justifies a search in other Madison County records.

Madison County, Mississippi Territory tax lists in this issue of Valley Leaves (Volume 4, #4) were copied from microfilm of the original records located in the Mississippi State Archives, Jackson, Mississippi. (Microfilm must be obtained from Micro Photo Division, Bell & Howell Company, Drawer E, Wooster, Ohio 44691.) The extant tax returns for all of Mississippi Territory from 1802 through 1817 are given on two rolls of film, an inventory of which is listed below. The state in which the county is now located is given in parenthesis followed by the tax returns available for that county.

TAX LAWS

The Statutes of the Mississippi Territory, Revised and Digested by the Authority of the General Assembly by the Honorable Harry Toulmin, one of the United States' Judges for the Mississippi Territory. Natchez: printed by Samuel Terrell, Printer to The Mississippi Territory. 1807.

Chapter IV. An Act to raise Supplies and make Appropriations for the Year 1807.

Section 2. (page 39) "... the sum of twenty-five cents for every hundred dollars value be paid, in specie, on all lands lying within this territory....; and on one-fourth part of all pre-emption claims, whose right of preference has been confirmed..., and where the claimant has paid the first instalment due..... Class No. 6. shall contain all lands lying east of Pearl River, and not included in Class No. 5. ('lying below the flooding tide'), the first quality of which shall be rated at three dollars per acre; the second quality at one dollar per acre; and the third quality at fifty cents per acre." (All Madison County, Mississippi Territory land was Class No. 6. through 1815. - Editor.)

Section 3. (page 40) "... That the sum of one dollar shall be levied on all free white males above the age of twenty-one years and under the age of fifty years; the sum of one dollar on all free negroes, mulattoes and mistigoes, between the age of eighteen and fifty years; the sum of seventy-five cents on all slaves, and twenty-five cents on every hundred dollars value of all land, lots and buildings within any city, village or borough; and fifty cents per centum on all stock in trade; the sum of ten dollars on all professors of law and physic; and the sum of one and a half per centum on all sales at auction, to be ascertained and rated by the assessors and collectors throughout this territory." (etc.)

Approved February 10, 1807.

This 1807 law is the only one which could be secured designating poll tax age limits, as no mention of this particular item was published in Edward Turner's 1816 Statutes of the Mississippi Territory. Therefore positive identification of the term "white poll" remains elusive, and it can only be assumed this tax continued to be levied on males between 21 and 50 years during the 1810 to 1815 period. Women were not required to pay poll tax, but were assessed on other items including taxable males in the same household. (By 1822, "white polls" in Alabama were males between 21 and 45 years. Digest of the Laws of the State of Alabama by Harry Toulmin, page 753.)

Tax rates reckoned from money paid in Madison County, Mississippi Territory:
 White Polls, each: 1810,1811,1812 - \$1.00; 1813,1815 - 66 $\frac{2}{3}$ ¢ (Free Colored same)

 Town Lots: 1810,1811,1812 - 25¢ per \$100 value; 1813,1815 - 20¢ per \$100 value

Freeman In addition to the list of Littleberry Adams, which is on the list I first sent you he has since rendered an account of a pleasureable Carriage which he states was forgotten - Those men whose names appear on this list I have discovered since the militia of the County has been organized, before I had it not in my power to apply to them they have volentarily offered it, I saw no impropriety in recieving it. Gabl. Moore

1811 TAX LIST

The 1811 Madison County, Mississippi Territory tax list has the same headings as the 1810 list. Pages are numbered 1 through 30 with the last page signed by Gabriel Moore, Assessor and Collector, 4th Sept. 1811. The taxpayers' names are in semi-alphabetical order, i.e. "A's" together, "B's" together, etc. except for a few names at the end of the list.

1812 TAX LIST

The 1812 Madison County, Mississippi Territory tax list, 35 unnumbered pages, has headings basically the same as the 1810 and 1811 lists. Apparently James McCartney was Tax Assessor and Collector as his is the last name on the unsigned list. The names of taxpayers, in semi-alphabetical order, are written last name first, middle initial (if any), and then the first name, i.e. Scott W Isaac for Isaac W. Scott.

1813 TAX LIST

The 1813 tax list for Madison County, Mississippi Territory has the same headings as the 1815 list, which are written in a very heavy hand on both sides of thin paper. The names are in semi-alphabetical order and some are difficult to read. The 49 pages are unnumbered and signed at the end by James McCartney with no date given. Taxpayers' names in 1813 are written last name first, middle initial (if any), and then the first name as in 1812.

1814 TAX LIST

(The 1814 tax list for Madison County, Mississippi Territory is missing, or perhaps not taken due to the War of 1812.)

1815 TAX LIST

The headings on the Madison County, Mississippi Territory 1815 tax list are:

Names of persons owning or having in care any taxable property
 Land: No. of Acres, No. of Acres, Class, Quality
 Town Lots: No., Value
 Amount of land tax including that on Town lots: Doll, Cnts
 Situation: 1, 2 (Note: All Madison County or Huntsville)
 Under what title Claimed (Note: All United States)

 January 1815: Dollars, Cents
 No. of wheels of pleasurable Carriages
 No. of White Polls
 No. of free persons of Colour
 No. of Slaves
 Amount of Territorial Tax: Dollars, Cents.

Returns in 1815 were recorded according to militia companies. The names of taxpayers are in semi-alphabetical order within each company on numbered pages, as follows: (Reference to Valley Leaves, December 1969 Special Edition, is helpful in identifying the militia leaders.)

Page 121 lists a few additional names entered after the book was "cast up." John M. Taylor was Tax Assessor and Collector at this time but did not sign the end of the list. Two dates on which money was paid into the treasury, 15 Sept. 1815 and 6 Nov. 1815, are written on this page.

An informative note, undated, is on page 122. The words marked through were so marked on the original. The note reads:

"The reason that some names in this book are erased out: ~~are-on-consequence of-examining-the-muster-roll-of-each-Capt-Company-also-by-inquiry~~ is that copies of muster rolls were posted on the book (so that noone should escape) by that means I ~~took~~ entered the names of some who were not subject to taxation: some in all probability in service at that time and some moved away before I could get their return, & some names taken down in the same manner entered on the left hand page and paid since the book was cast up (and cast up on the left hand page)"

The "left hand page" was page 121.

There are a number of names written on the tax list for 1815 with no returns under any category. Likewise, there are many names which have been marked out and others which were erased. Assuming that the appearance of such a name on the 1815 list indicates that person is "not subject to taxation," "in service at that time," or "moved away," an effort has been made to decipher every obliterated name. These 1815 names are indicated by "*" in this compilation. If there is another listing elsewhere in 1815 for the same name, the entry will appear with the "number of white polls" for the other entry plus "*" for the obliterated name, i.e. 1,* or 2,* (See Valley Leaves, Volume 2, #4 for names of some North Alabamians in the War of 1812.)

The names entered on the "left hand page" were listed twice - once on the original 1815 list and again on page 121. Their tax was obviously not "cast up" or counted with the other taxpayers, although, for some of them, tax was entered later on the original list. These 1815 names are indicated by "#" in this alphabetical listing.

EDITORIAL

Efforts on our behalf to present the Madison County, Mississippi Territory 1810-1815 taxpayer's names in usable form resulted in a compiled alphabetical list. When using this typed copy, bear in mind it would somewhat resemble the original tax lists if it was smeared, illegible, torn, inked, soiled, faded, dampened and then stored to "age." The conditions of the originals made working from a microfilm copy even more difficult. Inevitably exceptions are certain to be taken with some of our interpretations, but hopefully these instances will be few.

In transcribing, the handwriting and phoenetic spelling were great barriers. The old style "ff," "fs" and "f" ("ss" and "s") are easily confused with several letter combinations and prevelant m's, n's, u's, v's and w's often appeared as waves across a line. Many "i" dots, "t" crosses and parts of letters have faded or were never there at all. When an "a" or an "o" was not closed at the top, our perplexity can be imagined. We also watched for inadvertant errors made by the Tax Collectors, such as writing Ewans for Ewing, reversing William Thompson's name, marking Elizabeth Bird's slaves in the wrong column, reporting incorrect tax returns and frequently misplacing names despite semi-alphabetical listing.

Taxpayers with the same or interchangeable full names were combined when we felt it was justified. Some of the problems encountered are shown in the examples, with many decisions on combining being made only after consulting other Madison County records. Personal knowledge helped in knowing William Right and Williams Wright were individuals and in distinguishing between the John and Jehu Lawlers. Consider that similar first names may indicate twins and check every possible spelling of the surname you seek. Usually no cross-reference is noted for interchangeable surnames attended by different first names, such as Joseph Doherty, James Dorherty and William Dotrey, and for ones like John Camp and Nathaniel Kemp. Along this line Canimer, Flepper and Rawark were probably Kenimur, Flippo and Rourk, while Bazor (Basoer-Bosore), Booring (Borin), Gar(r)en, Pyvass, Twedney and Wartham were undoubtedly Basore (Baysore), Boring, Geron, Pybes, Tweedy and Wortham as shown from other sources.

After a diligent search through the Mississippi Archives' holdings, the term "white poll" still remains subject to question, but for the search we are indebted to Mrs. W. O. Harrell, Research and Editorial Assistant there, who also provided us with copies of the tax laws. A few changes and additions were necessarily made on John Melish's map. Please note that the Flint Creek he shows is not Madison County's Flint River which is referred to in our examples. Improper labeling by Dr. Dunbar Rowland is responsible for the Madison County "1816 Census" error being perpetuated, thus we have endeavored to "explain away" a research tool familiar to many. And to our sadly neglected families, "THANK YOU" for bearing with us!

Ann & Catherine

GLOSSARY

NUMBERS:

Each number in a column represents the number of white males who paid or had paid for him poll taxes under that entry for that year. When there is a '0' in the column, the name to the left paid no poll tax, but did show returns under at least one other heading on the original tax list.

Two or more numbers in one column, separated by a comma, represents the number of white males taxed for each entry under this name. Two entries for a name in one year may represent different men who had the same name; or may represent the same man reporting poll tax (living) in one district while paying land or other taxes elsewhere in the county. The entries are given in the order in which the repeated name appears on the original tax list for that year.

SURNAMENAMES:

Allison (Allesson 1810,1811) indicates 'Allison' was spelled 'Allesson' in every entry in 1810 and 1811.

Allison (2-Ellison 1812) indicates 'Allison' was spelled 'Ellison' twice in 1812, other times that year it was spelled 'Allison' as alphabetically entered.

Ellison (see Allison) indicates all or some names spelled 'Ellison' have been combined with 'Allison.'

All surname variations are presented in this manner. Some first name variations are given, but abbreviations, minor misspellings and the year in which they occur are usually not indicated.

TERMS:

"The Same" after an entry is used when a man's tax was reported on one line and another entry for him entitled "The Same" was entered on the next line. These are shown in order to distinguish this from another entry for the same name located elsewhere on the original tax list.

"Same for" is evidently used on the original list when one man reported (or paid?) another's tax. When Henry Cox reported _____ Jones' tax, following Cox's entry there would be an entry entitled "Same for Jones." When a "Same for" entry is shown, there always appears on this typed list a reference to the name preceding the entry on the original tax list, in this case, "(after Henry Cox)."

SYMBOLS:

* In 1815 a semi-alphabetical list of those who lived and/or owned land in each militia company was compiled. If a man did not owe taxes, his name was erased, marked out, or left with no tax listed. On the following typed pages, a '*' indicates these names.

Some names were entered again on the 1815 tax list after the book was "cast up," thus these names appear twice (first in the militia company semi-alphabetical list, and second where their taxes were counted at the end of the returns on page 121). These double entry names were marked on the militia company list to show their tax was counted at the end (page 121). On the following typed pages a '#' preceded by the poll entry for that taxpayer in 1815 indicates those names entered after the book was "cast up."

ABOUT THE 1816 CENSUS....

Although Dr. Dunbar Rowland did not claim there was a Mississippi Territorial 1816 census for Madison County, researchers have often used his "List of Taxable Property for 1815" as the actual census. Ironically the Madison County tax list he used is not the 1815 list, but is in fact the earlier 1813 tax list. For proof study the following excerpts from Rowland's Register.

The Official and Statistical Register of the State of Mississippi, Centennial Edition, 1917 by Dunbar Rowland, LL. D., Madison, Wisconsin, Democrat Printing Company, 1917.

INHABITANTS OF MISSISSIPPI IN 1816.

From the original rolls, on file in the Department of Archives and History.

A census was taken in 1816, by authority of the general assembly, in connection with the movement for statehood, and is of unusual interest. In the following table it is separated into historical regions:

NOTE! → It will be noted that tax lists of certain counties have been used in this compilation. These are largely in accord with census returns, and are used for the reason that the census rolls of those counties are not available.

Compare the "1815 Tax List" names which are given below and on the next page with the names of the Madison County 1813 taxpayers in this issue of Valley Leaves. Occasionally there is a variation in the interpretation of the original handwriting, but it is certain the same names were being transcribed.

NOTE → Madison County list of taxable property for 1815. Entered in journal page 396.

← Note: Name reversed

Further proof this list was made in 1813, rather than 1815, is that James McCartney was the Tax Assessor and Collector in 1813. By 1815, John M. Taylor held this office in Madison County, Mississippi Territory.

Now, was there an 1816 census for this county?

About the 1816 Census.... (continued)

In 1816, with statehood as their objective, the Mississippi Territorial Legislature directed that a census be taken, but there is no evidence that a report was received from the remote county of Madison. A division of the territory had been proposed and the area east of the Pearl River was to become Alabama Territory; for this reason it is believed a census north of the Tennessee River was of little importance. The extant census records returned by the populous counties in the southern part of the territory, which were important to the bid for statehood, are preserved in the Mississippi Archives and on Bell & Howell microfilm rolls #546, #547 and #548.

In 1937-38, Carter compiled the Mississippi Volumes (V and VI) of The Territorial Papers in which two 1816 census abstracts are given as taken from Congressional documents. The following excerpts show Madison County inhabitants as reported in estimated round numbers with no breakdown tabulations. All of this leads to the unfortunate conclusion that an 1816 census was apparently never taken in Madison County, Mississippi Territory.

WASHINGTON 15th Nov^r 1816

DEAR SIR I deferred writing thus long hoping to have the Census of our Country complete, I herewith inclose the am^t with the exception of two Counties (viz) Mobile and Hancock, which will not be returned in time for your Session owing to a failure in the officers to take them—I have guessed at their am^t pretty nearly I suppose from the best information and annexed it; Hancock you recollect lies in Florida on Pearl River—

I give you first the Counties West of your proposed line—discriminating white and Black Population—(viz)—
