

INDEX

The Author Thanks John P. Rankin for Preparing the Index

NOTE: Some of the source material used in this book employed only first names. Those could not be included in a meaningful way in this index and are excluded. Generally, wives are listed under both the married name and the maiden surname. Names of people (even the famous) not directly associated with the arsenal were likewise omitted in most cases. Church, school, and community names on arsenal lands are included, but names of creeks and nearby towns are not listed herein.
