

CAMPBELL CEMETERY

LOCATION: On Western edge of Hale Mountain. Section 11-1-2E, SE NE NE NE
 (Note: Location is approximate. Mr. Homer Yarbrough took Ann Cochran and I to this cemetery or we would never have found it since it is on the side of the mountain in dense woods. I am most grateful to Mr. Yarbrough and Mrs. Cochran for their help in finding and copying this cemetery.)

Note: There were 15 unmarked graves in this cemetery which was surrounded on two sides by a rock wall. I was told by a family connection that the first wife, the father, and the mother of George Washington Campbell was buried here. George Washington Campbell was born July 7, 1824 and died Jan. 26, 1919. I am unable to verify this information. Marriage Book 4A shows George W. Campbell -m- Luvisa Ackard March 24, 1849 and then on May 10, 1849 a George W. Campbell -m- Louisa Hambrick, and on March 24, 1853 a George W. Campbell -m- Luticia Akard. Marriage Book 4 shows one George W. Campbell -m- Harriett Stone August 2, 1832. George W. seems to be a popular name in this Campbell family, therefore, I will leave it to the reader to sort it out.

The "X" below represent unmarked graves. The "A" represents the grave of Susanah Campbell and the "B" represents the grave of William Barnet Campbell.
