### TILLER CEMETERY

LOCATION: Section 4-3-1E - NE NE SW SE. On south side of Winchester Pike in field near road and approximately 3/4 mile east of the Moores Mill Road intersection.

When I checked this cemetery in about 1970 there was only one tombstone left in it and it had weathered to where no inscription was visible. In talking to a 96 year old Negro man, who had lived all his life in this community, Bobby Drake was told that this is the tombstone of Abraham Tiller. The old man also said that Abraham Tiller's wife plus six or seven others were buried here even though there are no tombstones for them.
