Rest, sweet rest.

There are several members of the Latham, Buford and related families buried here. Some had
tombstones. There was a child's stone here in the shape of a cradle but no inscription. All stones (except
the Carpenter stone) are now gone.

LEMLEY CEMETERY

Location: Section 7-6-2E. N/2 NE NW NW. On section line between Sections 6 and 7.

No stones in this family cemetery. They were carried off by a past owner and destroyed.

BIG COVE CHURCH CEMETERY

Location: Section 2-6-1E. W/2 W/2 NW NW.

This is a huge cemetery and no stones were found but there are countless sinks. There is a
subdivision presently being built adjacent to it. The cemetery itself, however, has been saved by the efforts
of **Nancy VanValkenburgh**, a descendant of some of those buried here.
