The record above shows John Jones at age 34 with wife Rachel (age 26), living in the town of Madison. From marriage records, it is known that Rachel was an Edwards prior to the marriage. This is further proven by the "brother-in-law" to John, Benjamin Edwards, being listed in the household. The census shows that John and Rachel were married for 6 years and that she had borne 2 children, both living, at the time of the census.
