The above **INDEX TO LANDS** by G. W. Jones & Sons, Inc., shows that the northwest quarter of Section 25 changed hands more than all of the other quarters of this section combined. The parcel containing the cemetery was first patented from the government on 3 February 1818 by Elijah Boardman, who also got land in adjoining sections, according to Margaret Cowart's OLD LAND RECORDS book. Eldred Rawlins, who married a Lanier (see the Summary Report on the Rawlins – Lanier Cemetery, 37 - 4) took the Southwest Quarter of Section 25 on the same date that Elijah Boardman got his land. Isaac Inman (see the Summary Report for the Emeline – Inman Cemetery, 62 - 1) took land in adjacent Section 26.
