Of course, there are many more records still uncollected at the courthouse and Records Center archives, such as tax lists for additional years (going back to 1856) and various court records. For now, the data presented above indicates several more burials that were known in the Horton – Joiner Cemetery than those indicated solely by tombstones. The Horton portion of the namesake of the cemetery goes back to some of the early settlers of Madison County, as shown in the census record below:
