NOTE: There were no white entries from Sept., 1904 until May, 1911. There were negro entries through December, 1904 and then no more through the end of the book. The negroes were probably kept in a separate ledger from Dec. 1904 and the entries from May, 1911 all appear to be white.

NOTE: Some of the above burials were in June and some in May, 1911. The next entries are in 1913. Beginning in March, 1913 the attending physician's name appears in the "Remarks" column but I have omitted it here due to space. Also beginning in March, 1913 the plot location is given, therefore, B-89 means Block No. "B" and Square No. 89.
